

# DAUPHIN ISLAND FIRE RESCUE

## - FIRE HOSE ADOPTION PROGRAM-

Have you ever wanted to help your local emergency responders?  
Consider adoption.

Dauphin Island Volunteer Fire Rescue has two fire trucks that each carry 1400 feet of hose that connects to a fire hydrant. Over time our older hose needs to be replaced.

We are asking families, civic organizations and business to adopt a 50 foot length of hose for \$210.

Each “parent” will receive:

- An adoption certificate.
- A picture to remember.
- Your name will be for stenciled on the hose for its lifetime.
